Not illustrated. 1833 Excerpt: .boy one league, and a little girl one degree, which would beat the end of their journey first.if one went as fast as the other? What difference between a league and a mile? How long would it take to go one degree? How long to go one mile?c. The children should be always allowed to ask any question on the measure, and indeed on every subject introduced. In teaching avoirdupois and apothecaries weights, we should adopt nearly similar methods; I will give an outline.--Teacher. Suppose your mother was to send you for a pound of something from the druggists, and desire you to bring a pound of sugar from the grocer s, how many ounces would you have? Suppose you carried one parcel in one hand, and another in the other, would the weight be equal? If you were desired to bring a ton of coals, could...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Ally Reichel**

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
