NewTrendsInIntegrabilityandPartial Solvability (ARW. 978791)

tookplaceinthebeautifulsettingoftheFaculty ofMedicineofC

adizUniversity smainroomonJune13-15,2002. Although

thenumberofparticipantswas 30,

thelectureswereattendedbymorethan one hundred researchers

from around the world who were also attending the NEEDS

2002 meeting. Theaim of the organizers was to take advantage

of these events to bring together researchers from the ?eld of

integrable systems and/or from the particular subject of

partial integrability, in view of the current interest in

combining methods and ideas arising from both areas. A

widevariety of topics were covered in the talks andthe

subsequent discussions, including the analysis of reductions

and solutions of integrable nonlinear partial di?erential

equations and dynamical systems, new me- ods for the

analysis of initial-boundary value problems for linear partial

di?erential equations, quasi-exactly solvable Bose systems, the

geometric theory of ordinarydi?erential equations, exactly and

partially solvable spin models, the theory of nonlocal

symmetries of di?erential equations, and superintegrable

systems. Theworkshop revealed the growing importance of the

theory of integrable system as well as the emerging theory of

partially solvable systems. The present volume contains a

series of invited contributions describing...

Reviews

The most effective book i ever read through. it had been writtern quite flawlessly and valuable. I am just happy to let you know that here is the very best publication i have got read through during my individual daily life and may be he greatest pdf for ever.

-- **Prof. Adonis Rodriguez**

Comprehensive information for publication fans. I have got read and i am confident that i am going to likely to go through once again once again in the foreseeable future. I am just very happy to let you know that this is actually the greatest book i have read in my very own existence and could be he finest book for at any time.

-- **Clair Windler**
