Directions: Suspend the kg. weight from the ceiling by means of the brass wire in such a manner that it will just swing over the top of the table. When it has come to rest, mark the point directly beneath it, O. With O as a center and a radius about 20 cm. long, draw a circle on the table top or a sheet of paper laid thereon. Set the body swinging and by repeated trials make it swing exactly over the circumference of the circle. When so swinging determine the time for ten complete vibrations. From this compute the speed. Measure OA and OB with the meter-bar. Compute AN from the proportion given above, or AN may be found by attaching the spring-balance to the weight, pull horizontally outward and read the force recorded on the spring-balance when the weight is just...
