

Tactile display using LED

Filesize: 5.39 MB

Reviews

The book is straightforward in go through better to understand. it had been writtern quite flawlessly and valuable. You can expect to like the way the author publish this book.

(Reyes Murphy)

TACTILE DISPLAY USING LED

LAP Lambert Academic Publishing Jan 2012, 2012. Taschenbuch. Book Condition: Neu. 220x150x4 mm. This item is printed on demand - Print on Demand Neuware - The goal of this project is to give better quality of life for the visually impaired personnel. The main objective of this project is to describe about the wearable device that converts visual information into a tactile signal, but we minimize this project by using dot matrix display instead of using the tactile display because of the unavailability of the device. Generally the visual sense of any image provides a very complex set of information about the surrounding environmental area, and particularly it informs about an organism about their positions and properties of an objects in the world. 64 pp. Englisch.
